**1. What is a computer network?**

- A system of connected computers sharing resources
- A device that protects computers from viruses
- A software program for creating documents
- A hardware unit used for printing files
- A storage device for saving digital data

**2. What is the main function of a hub in a network?**

- It repeats signals to all connected ports
- It encrypts messages between two computers
- It stores data for later network access
- It converts wireless signals into cables
- It monitors users accessing internet websites

**3. What does a switch use to forward data correctly?**

- It uses MAC addresses to send frames
- It uses usernames to identify computers
- It uses passwords to protect messages
- It uses IP websites to route messages
- It uses domain names for connection control

**4. What is the main role of a router in a network?**

- It selects the best path for data packets
- It stores information on connected servers
- It repeats signals to every device port
- It displays websites on user computers
- It creates passwords for network security

### **5. What does LAN stand for in networking?**

- Local Area Network connecting nearby devices
- Large Access Network connecting global systems
- Logical Address Network controlling MAC numbers
- Local Application Network managing computer programs
- Layer Access Network controlling internet traffic

### **6. Which layer of the OSI model handles routing?**

- Network layer responsible for path selection
- Session layer responsible for communication setup
- Transport layer responsible for message delivery
- Physical layer responsible for cable signals
- Presentation layer responsible for data formatting

### **7. What is the main function of the Data Link layer?**

- It controls media access and logical addressing
- It manages application software on computers
- It converts files into multimedia formats
- It stores information in computer memory
- It sends emails between internet servers

### **8. What does the Physical layer define?**

- Electrical and mechanical network transmission rules
- Software programs used by network engineers
- Security passwords for internet connections
- File formats used in data processing
- Operating systems used on computers

**9. What is the purpose of a firewall in a network?**

- It controls and manages access between networks
- It increases internet speed for computers
- It stores backup copies of network files
- It converts cables into wireless signals
- It prints network activity reports

**10. What type of network covers large geographical areas?**

- Wide Area Network connecting distant locations
- Local Area Network connecting nearby computers
- Personal Area Network connecting mobile devices
- Storage Area Network connecting file systems
- Campus Area Network connecting school buildings

**11. What is the main goal of security in system software?**

- Protect system data from unauthorized access
- Increase the speed of the computer system
- Improve graphical interface of software
- Reduce the amount of stored information
- Simplify installation of new programs

## **12. What does access control mainly regulate?**

- Who can access and use system resources
- How fast programs run in memory
- How software updates are installed
- How users change system language
- How files are compressed in storage

## **13. What is identification in access control?**

- Assigning a unique identity to each user
- Encrypting data stored on the system
- Removing inactive users from system
- Increasing protection of network cables
- Blocking dangerous software programs

## **14. What is authentication in computer security?**

- Verifying the identity of a system user
- Allowing users to install applications
- Increasing computer memory capacity
- Changing passwords automatically daily
- Connecting the computer to internet

## **15. What does authorization determine?**

- What actions a user is allowed to perform
- How users connect to external devices
- How files are physically stored on disk
- When the operating system starts up
- Where backup copies are saved

**16. Which action is an example of system permission?**

- Read write execute or delete files
- Turn on computer and open browser
- Install games and change wallpaper
- Create folders and rename desktop
- Change language and keyboard layout

**17. What does DAC mean in access control?**

- Discretionary Access Control model
- Distributed Application Computing model
- Dynamic Allocation Control method
- Data Analysis Connection protocol
- Digital Authentication Command system

**18. In DAC who decides access permissions?**

- The owner of the system resource
- The internet service provider
- The hardware manufacturer company
- The operating system installer
- The computer network cables

**19. Where is Mandatory Access Control commonly used?**

- High security government environments
- Small home computer networks
- Personal entertainment computers
- Graphic design software systems
- Music streaming applications

**20. What does RBAC stand for?**

- Role Based Access Control model
- Remote Backup Access Center
- Rapid Binary Application Code
- Random Bandwidth Allocation Control
- Resource Buffer Allocation Channel

**21. How are permissions assigned in RBAC?**

- Permissions are assigned to specific roles
- Permissions are assigned to computers
- Permissions are assigned to networks
- Permissions are assigned to cables
- Permissions are assigned to devices

**22. What does ABAC use to decide access?**

- User resource and environment attributes
- Only the user computer hardware
- Only the size of system memory
- Only the installed software version
- Only the internet connection speed

**23. What is an Access Control List?**

- Table showing user permissions for objects
- List of all programs in computer
- List of connected network cables
- Table of system startup processes
- List of installed graphic drivers

#### **24. What is a Capability List?**

- List of keys granting user access rights
- List of deleted files in system
- List of programs installed yesterday
- List of active internet connections
- List of printers connected to system

#### **25. What is the role of a Reference Monitor?**

- Control all access requests in system
- Manage internet browser updates
- Control brightness of computer screen
- Organize files in desktop folders
- Manage audio output of speakers

#### **26. Choose the correct variant. System software mainly controls ... .**

- computer hardware resources
- digital graphic pictures
- multimedia video projects
- online social media
- music recording tools

#### **27. Choose the correct variant. System software helps computers ... .**

- manage system operations
- edit digital photo images
- record high -quality audio tracks
- design colorful posters online
- print large photo pictures

#### **28. Choose the correct variant. System software works between ... .**

- hardware and programs
- cameras and photos
- speakers and sound
- printers and paper
- scanners and images

29. Choose the correct variant. An example of system software is ... .

- operating system
- photo editor
- video editor
- music program
- graphic program

30. Choose the correct variant. System software allows computers ... .

- run other programs
- design graphic art
- edit video clips
- create audio songs
- print color photos

31. Choose the correct variant. System software manages ... .

- system hardware devices
- digital image files
- multimedia video clips
- music recording files
- graphic design tools

32. Choose the correct variant. Without system software computers cannot ... .

- run application programs
- edit graphic pictures
- create music tracks
- watch video films
- print photo images

33. Choose the correct variant. System software helps to control ... .

- memory and devices
- videos and photos
- music and sound
- posters and ads
- cameras and photos

34. Choose the correct variant. System software is usually installed ... .

- before other programs
- after editing photos
- during video design
- while playing music
- after printing files

35. Choose the correct variant. System software supports ... .

- basic computer work
- graphic image design
- multimedia video editing
- music recording tasks
- photo printing jobs

36. Choose the correct variant. An operating system controls ... .

- computer hardware devices
- graphic image design
- multimedia video editing
- digital music creation
- poster printing tools

37. Choose the correct variant. An operating system manages ... .

- memory and processes
- photo editing tools
- music recording tools
- video animation tools
- printing software

38. Choose the correct variant. Windows is a type of ... .

- operating system
- graphic editor
- music program
- video editor
- photo tool

39. Choose the correct variant. The operating system helps users ... .

- control computer tasks
- design graphic posters
- edit video movies
- record audio music
- print photo pictures

40. Choose the correct variant. Operating systems organize ... .

- files and folders
- images and posters
- songs and music
- videos and films
- photos and graphics

41. Choose the correct variant. The operating system starts when ... .

- computer is turned on
- video program opens
- music file starts
- printer begins work
- camera connects

42. Choose the correct variant. The operating system provides ... .

- user interface
- image editing
- video design
- music creation
- photo printing

43. Choose the correct variant. The operating system helps to manage ... .

- hardware resources
- graphic pictures
- video animations
- music recordings
- photo albums

44. Choose the correct variant. Linux is an example of ... .

- operating system
- video editor
- graphic tool
- music program
- photo editor

45. Choose the correct variant. Without an operating system a computer ... .

- cannot work properly
- cannot edit photos
- cannot play music
- cannot show videos
- cannot print files

46. Choose the correct variant. System software mainly ... .

- manages computer hardware
- edits digital graphic photos
- records studio music audio
- designs video clips
- prints office pages

47. Choose the correct variant. Application software helps users ... .

- perform specific tasks
- control hardware devices
- manage system memory
- organize system files
- protect system data

48. Choose the correct variant. Microsoft Word is ... .

- application software
- system software
- operating system
- system utility
- device driver

49. Choose the correct variant. System software supports ... .

- application programs
- graphic pictures
- video animations
- music recording
- photo printing

50. Choose the correct variant. Application software is used for ... .

- user tasks
- system control
- memory control
- hardware control
- network control

51. Choose the correct variant. Excel program is ... .

- application software
- operating system
- system driver
- system tool
- system firmware

52. Choose the correct variant. System software runs ... .

- the computer system
- graphic programs
- music programs
- video programs
- photo programs

53. Choose the correct variant. Application software depends on ... .

- system software
- camera tools
- speaker tools
- printer tools
- scanner tools

54. Choose the correct variant. Application programs help users ... .

- create documents
- manage hardware
- control memory
- protect devices
- organize drivers

55. Choose the correct variant. System software usually includes ... .

- operating system
- video editing software
- music editing software
- photo editor
- graphic editor

56. Choose the correct variant. Installing software means ... .

- adding a program
- editing a picture
- recording a song
- printing a file
- watching a video

57. Choose the correct variant. Software installation usually starts with ... .

- setup program
- photo editor
- music player
- video viewer
- image scanner

58. Choose the correct variant. Configuration means ... .

- changing settings
- editing images
- recording sound
- printing pages
- drawing pictures

59. Choose the correct variant. A file system organizes ... .

- stored computer data
- digital graphic images
- large video editing projects
- recorded studio music tracks
- printed office documents pages

60. Choose the correct variant. Files are stored inside ... .

- folders
- printers
- cameras
- speakers
- scanners

61. Choose the correct variant. Hard drive is a type of ... .

- storage device
- graphic device
- audio device
- video device
- printing device

62. Choose the correct variant. A folder is used to ... .

- group files
- print pages
- edit photos
- record sound
- play videos

63. Choose the correct variant. System security protects ... .

- computer data
- graphic images
- video clips
- audio songs
- printed photos

64. Choose the correct variant. Password is used for ... .

- user access
- image editing
- video design
- music recording
- photo printing

65. Choose the correct variant. Antivirus software finds ... .

- computer viruses
- graphic pictures
- video movies
- music files
- photo prints

66. Choose the correct variant. Unauthorized access means ... .

- no permission
- photo editing
- video creation
- music recording
- file printing

67. Choose the correct variant. Encryption protects ... .

- secret data
- photo colors
- video clips
- music sounds
- printed pages

68. Choose the correct variant. Technical support helps users ... .

- solve computer problems
- design professional graphic images
- edit digital video clips online
- record high -quality music files
- print colorful photo pages

69. Choose the correct variant. Help desk workers usually ... .

- assist users
- design posters
- edit videos
- record songs
- print photos

70. Choose the correct variant. Troubleshooting means ... .

- fixing problems
- drawing pictures
- editing videos
- recording music
- printing pages

71. Choose the correct variant. Technical support may work by ... .

- phone service
- photo design
- video editing
- music recording
- poster printing

72. Choose the correct variant. Help desk service provides ... .

- user assistance
- photo design
- video design
- music editing
- poster printing

73. Choose the correct variant. A computer network connects ... .

- multiple computers
- photo editors
- video players
- music tools
- print devices

74. Choose the correct variant. Internet is a global ... .

- computer network
- photo system
- video system
- audio system
- print system

75. Choose the correct variant. Router is a network ... .

- device
- picture
- video
- music
- page

**76. Choose the correct variant. What is system software primarily used for?**

- To manage computer hardware
- To create artwork and designs
- To browse the internet only
- To write novels or documents
- To play music and videos

**77. Choose the correct variant. Which type of software controls the basic functions of a computer?**

- Operating system software
- Video editing software
- Database software
- Presentation software
- Gaming software

**78. Choose the correct variant. Why is system software important in computers?**

- It allows the computer to function efficiently
- It decorates the desktop interface
- It prints documents automatically
- It reduces internet bandwidth usage
- It manages social media accounts

**79. Choose the correct variant. What is included in system software?**

- Operating systems and utility programs
- Word processors and spreadsheets
- Video games and media players
- Music composition tools
- Email and messaging apps

**80. Choose the correct variant. Which role does system software play in a computer?**

- It provides an environment for application software
- It paints and edits images
- It plays only audio files
- It designs websites
- It sends automatic emails

**81. Choose the correct variant. What is the main function of an operating system?**

- To manage hardware and software resources
- To create digital artwork
- To browse social media
- To design presentations
- To play audio and video

**82. Choose the correct variant. Which of these is an example of an operating system?**

- Windows 11
- Microsoft Word
- Adobe Photoshop
- Google Chrome
- VLC Media Player

**83. Choose the correct variant. Why do computers need an operating system?**

- To communicate between hardware and applications
- To decorate the desktop interface

- To write emails automatically
- To play music without software
- To create photo slideshows

**84. Choose the correct variant. Which task is performed by an operating system?**

- Managing memory, CPU, and storage devices
- Writing code for a game
- Designing office presentations
- Editing videos
- Composing music tracks

**85. Choose the correct variant. What type of interface is provided by most operating systems?**

- Graphical User Interface (GUI)
- Video streaming interface
- Online chat interface
- Music control interface
- Gaming control interface

**86. Choose the correct variant. What is application software used for?**

- To perform user-specific tasks
- To manage computer memory
- To control CPU and devices
- To install updates automatically
- To provide system security

**87. Choose the correct variant. Which of these is an example of application software?**

- Microsoft Excel
- Windows 10
- Linux Kernel
- BIOS
- Disk defragmenter

**88. Choose the correct variant. Why is it necessary to differentiate system and application software?**

- System software manages resources; applications perform tasks
- System software edits videos; applications browse the internet
- System software writes documents; applications control hardware
- System software plays music; applications control memory
- System software designs websites; applications paint images

**89. Choose the correct variant. Which software type allows you to perform office work?**

- Application software
- Operating system software
- Firmware
- Utility software

- Driver software

**90. Choose the correct variant. What is the main relationship between system and application software?**

- System software provides the environment for application software
- Application software controls memory for the system
- System software writes documents for users
- Application software manages the CPU directly
- System software edits videos automatically

**91. Choose the correct variant. What is the first step before installing software?**

- Checking system requirements
- Playing media files
- Browsing social networks
- Writing text documents
- Drawing digital images

**92. Choose the correct variant. Which action is necessary after installation?**

- Configuring the software settings
- Deleting system files
- Replacing hardware components
- Disconnecting from the internet
- Closing all applications

**93. Choose the correct variant. Why is it important to configure software correctly?**

- To ensure it runs efficiently and meets user needs
- To improve the computer's exterior design
- To play audio and video automatically
- To print documents faster
- To create social media posts

**94. Choose the correct variant. What is a common way to install software on a computer?**

- Using an installation wizard or setup program
- Deleting files manually
- Changing hardware cables
- Replacing the CPU
- Drawing installation diagrams

**95. Choose the correct variant. Which step ensures the software is ready for use?**

- Testing the application after installation
- Restarting only the display monitor
- Disconnecting storage devices
- Closing all browser tabs
- Removing network connections

**96. Choose the correct variant. What is a file system?**

- A way to organize and store data on storage devices
- A method to play music files
- A program to edit images
- A tool to watch videos
- A type of computer game

**97. Choose the correct variant. Which of the following is a file system type?**

- NTFS
- Microsoft Word
- Excel Spreadsheet
- Adobe Acrobat
- Windows Media Player

**98. Choose the correct variant. Why is storage management important?**

- To efficiently store and retrieve data
- To decorate desktop icons
- To create social media posts
- To write text automatically
- To play videos faster

**99. Choose the correct variant. Which action improves storage efficiency?**

- Disk defragmentation
- Changing monitor resolution
- Opening browser windows
- Editing images
- Creating emails

**100. Choose the correct variant. What is the main role of file management?**

- Organizing, accessing, and protecting files
- Streaming videos
- Playing audio
- Designing websites
- Editing documents automatically
